

When You Think Modular.....

Do you think this?

or this?

Since the early nineties, modular construction has been using the exact same building code as site built. Today's modular will last as long or longer than site built homes will.

Unfortunately many people, including those who should know better such as the occasional banker, appraiser, realtor, and inspector, still believe a modular built home is inferior to a site built home.

In reality, Modular construction creates a much stronger and better built home, often costing 20% less to build than the same site built home would.

Installation of Homes

We use specialized transport equipment that ensures the roads and development are minimally impacted by the delivery and setup process. On site setup time is reduced by about 75% compared to site built methods

Residential Homes

Single Section Homes

- They are available in widths of 12', 14', 16', 18', 20', 22' and even 24'.
- Lengths can be from 32' up to 76'.

Modular homes are constructed using the same building code requirements as site built and are certified to meet all building codes by the CSA Z240 Mobile or CSA A277 Modular National Construction Standards. Our homes can be built to be placed on a basement, a crawlspace, or utilized a heavy structural steel longitudinal supporting frame system on top of blocking or pilings.

Multi-Modular Homes

- They are available in width of 24' up to 42'
- Lengths can be from 32' up to 76'
- Heights up to Two story High.

Pro Modular Housing Solutions has extensive experience in single and multi family housing, including property development.

Having access to significant financial resources during construction and P3 project financing through our associate finance partners, ensures on time project completion without the stress of cost overruns due to delays.

Our highly experienced management team and extensive sub trade connections provides confidence that the housing unit(s) or project progresses on time, and most importantly, on budget.

By working with several different Modular Builder factories, we can ensure that the price and delivery requirements are attained, giving you peace of mind.
